「LABOR、OMNIA、VINCIT」

勤有功

鄭銘強副校長

本校校徽上的三組英文字「LABOR、OMNIA、VINCIT」，同學是否知道它的意思呢？它源自一首拉丁語的詩，英文譯作 Every difficulty was overcome by hard work，表示勤奮可以克服所有的困難。這是創校者對同學的期盼和祝福，亦是本校校訓「勤有功」的意思。

學校從來都不只是傳授知識的地方，更是我們學習處世的場所。要安身立命、揚名天下，「勤奮」自是不二法門。但怎樣才是勤奮呢？我想先和大家分享一個小故事。

採購員工甲在超級市場任職五年，一直盡忠職守，老闆指令的工作，他必定辦妥。某天，老闆擢升了只有兩年經驗的員工乙為採購主任，甲深深不忿找老闆理論：「我工作勤力，年資又比乙長，為何升職的不是我？」老闆說：「附近開了一間新的蔬菜專門店，你先去查看生菜的價錢再說。」甲二話不說跑去辦，回來報告：「每斤十二元。」老闆又問：「那豆苗的價錢呢？」甲立即再去蔬菜店，回來說：「每斤二十元。」老闆再問：「那菜心呢？」甲又奉命跑了一趟，回去向老闆報告。老闆不置可否，逕自吩咐乙到蔬菜店查看生菜售價。

乙回來後滔滔不絕：「生菜每斤十二元，菜心同白菜十四元，豆苗二十元，番茄和粟米……售價平均比我們高三四成，但全部是本地有機農場耕種，標榜健康，吸引很多太太光顧，致使近日我們的蔬菜生意跌了四成。近年不少香港農場老闆到深圳農場種植有機蔬菜，還取得有機認證。內地有機蔬菜品種多，價錢又比本地的便宜，如果我們多間分店大額採購的話，來貨價應該不會太高。明天我可以去深圳走一趟，如果成功引入，必定能為公司賺取更大的利潤。」

老闆點頭示好，甲聽得目瞪口呆，終於明白老闆擢升乙的原因。

「勤奮」不應該只是依時完成眼前的工作或功課，因為這只符合了最基本的要求。真正的勤奮，應該放眼長遠人生目標，作一切可能的準備，制定策略性計劃。一言略之，凡事不應只解決一時所需，應為將來作好準備。正如以上提到的例子，甲和乙均為採購員，理應為公司謀求最合乎經濟效益的採購策略；按本子辦事的甲固然完成了本份，但懂得高瞻遠矚的乙更能審時度勢，不但為公司爭取更佳的營商環境，更為自己的事業鋪設了青雲路。從乙為事業所費的心神，我們看到了更高層次的「勤奮」。

數年前，一位高中同學邀請我到科技與生活室品嚐他的菜式，原來他參加了一個全港性的烹飪比賽，我所試的正是他準備參賽的菜式，味道非常可口。後來我得知同學為了作最好的準備，每天只吃簡單的午餐，把省下來的錢購買材料，多作練習。對於這位同學能按自己的目標多下苦功，我十分感動。及至現在，這位同學仍然為將來能成為出色的廚師而勤奮努力。另一方面，同學可能都會留意到近年本校籃球隊及足球隊成績彪炳，但大家可知道他們為了爭取佳績而付出的努力呢？俗語說這個世界沒有免費午餐，亦正是告訴大家，所有的成功都得來不易。唯有勤奮，能使我們走近理想。

聖誕節前夕，兩位舊生回校拍攝大學畢業照。她們都是老師心目中的模範生，原因不單是因為成績優異，更重要的是她們非常勤奮，求學認真的態度令老師十分欣慰。雖然她們的高考成績並非最優異，但她們都能以一級榮譽的資格大學畢業。這是她們刻苦勤學的成果。

2014 及 2015 年，本校都有畢業生獲選為香港十大傑出青年，使我們感到十分高興。他們一位是醫學博士，一位是籃球教練。他們不單在自己的專業上有傑出表現，更關心社會上有需要的人。他們回校與學弟妹分享經驗時，均提醒大家要本着勤奮的態度，為人生的目標努力。

箴言 10：4「手懶的，要受貧窮；手勤的，卻要富足。」又箴言 22：29「你看見辦事殷勤的人嗎？他必站在君王面前，必不站在下賤人面前。」寄望我們的同學均能以校訓「勤有功」作為生命的態度，迎向人生不同階段的挑戰。

申命記 8 章 3 節

《一首秘魯名曲》

張尚衛老師

十一月初的一個下午，天色有點昏暗，從天星碼頭坐渡輪往中環，船程只不過是數分鐘，誰不知，坐上去的竟然是一架時光穿梭機，穿越了很多年前的往事。

二十多年前的某天，我同樣的從天星碼頭出發，目的地是香港大會堂。坐在我身旁的，是我的父親。他喜歡音樂，擅長拉手風琴，他對音樂很有天份，隨手拿來一首樂譜，他就能將整首歌曲唱出來。

西沉的太陽照得維多利亞港一片淡黃，海面磷光閃閃，船隻穿梭往來，在輪船上，我享受着爽潔的清風，肌膚感受着海的鹽味，午後的陽光為港島眾山的陵線鑲嵌了一道金環，穹頂之下如此景緻，令人感到舒適和平靜。我們終於到達了皇后碼頭，我和父親各自手持着一張《古典結他之夜》的門券。

大會堂建於一九六二年，分高座和低座，以現代主義建築風格建造，外觀線條簡約樸實。踏入演奏廳，沿着階梯步下，我們坐在較前排的位置。當晚人數不算太多，演奏廳沒有什麼裝潢，實而不華。不久，有一位外籍人士踏出台前，坐下，隨意的調了和弦，向台下一盼，說了幾句英文之後，便動指起奏。他奏的是一首賦格曲，不過是奏了幾個小節，各人已全神貫注。這是一首多旋律的賦格曲，一段短短的旋律出現後，另一旋律亦隨之而加入，旋律交錯，絲絲入扣。不過一會，另一旋律又亮麗的呈現，如此節節推進，層層延展，使人有如步入了一座十五世紀的歌德式建築物，推開一道門，打開一個窗，再推開一道門，再打開一個窗，彷如置身於一個壯麗的宮殿，探索着一個神秘的國度。

第二首是《Asturias》，只見結他大師左手在結他指板上跳躍，右手指在六弦上亂舞，就是這樣，入耳之聲就有說不出的妙境，時緩時急，忽高忽低，抑揚頓挫，百變無窮。之後是《La Ultima Cancion – Aguston Barrios Mangore》，此曲彷似能道盡世間情， 如怨如慕，如泣如訴，時如秋雨，時如寒星，賺人熱淚。彈罷，人弦俱寂。

步出大會堂後，我和爸爸行到皇后像廣場花園。我爸爸喜歡穿皮鞋，無論到甚麼地方，如旅行、行山或踏單車，他總愛穿著一對皮鞋。這次，他在這花園的石磚地上步行，其喀噠喀噠的腳步聲，特別響亮。我們買了一些飲品，他飲了一盒菊花茶，我飲了一罐忌廉。我們坐在石凳上，聽著風聲，談了幾句有關音樂會的東西，如此良夜，隨著地上樹影的搖晃，伴着結他的妙韻在腦子裏不斷的回響着，就是這樣的度過了。

二十多年後的今日，我又坐上了這艘渡輪，但我左右兩邊的，皆是一張空凳。 在這十多分鐘的船程，我想念到我爸爸的樣子，曾在這船兒上，我坐在他的身邊，他輕聲地哼著兩三首距今光年的老曲。午後的陽光，照射到他臉上深壑的皺紋，紋理與海上的波浪相映成趣，亦在我腦海中形成了深刻的圖案。我爸爸已過身多年了，我失去的不單是一個親人，更加是一個知音者。有時，我心想，為何我總未曾用結他與他的手風琴合奏一曲？為何我從未向他說一聲「我愛你」？ 為何沒有在他年老的時候，與他結伴，去他喜歡到的地方？

渡輪泊岸了，我漫無目的地在舊地移動着腳步。昔日的皇后碼頭不見了，取而代之的是中環渡輪碼頭。碼頭附近有個摩天輪，時針在轉動着，摩天輪也轉動着。一年前的今日，在這區的街道上，滿是一群一群的青年人，沿著龍和道和添美道一帶，掛滿了條幅、旗幟和標語，他們蓆地而坐，眼裏充滿着期盼和熱情，時唱出《海闊天空》、《Do you hear the people sing》等歌曲。但這些都已成過去，條幅、旗幟和標語已成為歷史，歌聲亦隨着冷風消失於空氣中，充滿熱情的年輕人面孔亦不復見。為何他們所追求的理想，如平地線般，越想走近，距離越遠？

午後的黃昏已過，黑夜已來臨。夜間的天氣變得冷清，周圍籠罩着一層不可思議的薄霧。汽車的燈光化成了鮮明的光河，我的眼鏡沾上了粉粉的細雨，視野變得模糊。返回中環碼頭，沿路彌漫着難言的鬱悶。

忽然間，遠處傳來排笛聲，看清楚，原來是一個穿著着一套南美高地傳統服裝的街頭表演者，吹奏着我很喜歡的歌曲《El Condor Pasa》，英文譯名是《If I could》。 我不期然的，依着碼頭的欄杆，隨着輕風的吹拂，跟着這美麗的旋律，唱起這首秘魯名曲 -《老鷹之歌》：

I'd rather be a sparrow than a snail
Yes I would
If I could, I surely would
Hmm mmm
I'd rather be a hammer than a nail
Yes I would
If I only could, I surely would
Hmm mmm
Away, I'd rather sail away
Like a swan that's here and gone
A man gets tied up to the ground
He gives the world its saddest sound,
its saddest sound
Hmm mmm
I'd rather be a forest than a street
Yes I would
If I could, I surely would
I'd rather feel the earth beneath my feet
Yes I would
If I only could, I surely would

舉頭一望，看到一隻麻鷹在天上飛翔。泊岸的船兒噴出黑煙，黑煙隨風而飄散，我的心亦隨風而飄遠。我除下眼鏡，抹去鏡上的雨點，因為，我知道，前面風高浪急，我必須要確保視線清晰，要看得清楚，看得遠。我抓緊衣領，昂然闊步，再踏進這渡輪上。我一面行，一面再次哼着這首《老鷹之歌》：我寧可是一隻麻雀，也不願做一隻蝸牛。我寧可是支鐵鎚，也不願是一根鐵釘。我願航行到遠方，像來了又去的天鵝。無錯，如果真的可以，我會這樣選擇。

各位同學，你愛你的父親嗎？今晚，請走近他的身旁，向他送上一句祝福，再說一聲「我愛你」！各位同學，你愛香港嗎？請守護你的家，你們是明天的主人。你會小看自己嗎？你可知道，你就是那台上的小結他，力量好比一隊管弦樂， 音量可傳至遠方，妙韻可震撼人心。你亦可以是那南美高地的老鷹，在空中自由飛翔，飛到地極，跨越時空。

寧為鐵鎚，不作鐵釘。你可以。

本校 6A 劉鳳平同學於 2015 年參與「仁愛堂環保城市探索之旅 2015 — 新加坡」計劃，面試甄選表現卓越，獲委任成為全港 23 名「考察大使」之一，並獲全數贊助於 8 月前往新加坡，展開為期 4 日 3 夜的考察之旅。是次考察由香港大學生物科學學院侯智恒博士及活動榮譽顧問李樂詩博士 MH 全程帶領，就當地的水資源、能源減耗、城市綠化規劃及建築廢物轉化等不同環保範疇作資料搜集及研究，深入探討新加坡的城市發展規劃及保育政策。其後，「考察大使」於 2015 年 11 月至 2016 年 7 月期間到全港學校及社區進行巡迴演講。

中五的暑假，中學裏最後一個暑假。結業禮時，校長訓示同學在暑假要打三個「結」，而我的其中一個「結」就是參加了新加坡 ─ 環保城市之旅。

活動於去年 6 月展開，我們在港大教授指導下進行了多次訓練。為確保每位參賽者對新加坡有基本認識，及能與當地人溝通，我們需要分組製作短片和研究報告，並以英語進行匯報，還要面對香港大學的侯智恆教授和其他導師在簡報會上多番詢問。經過一輪選拔，我有幸獲委任成為其中一位「考察大使」。

旅程於 8 月中旬出發，我們參觀了新加坡不同的景點，了解當地的環保政策和城市規劃，並且參觀能源、用水、生態保育、資源回收等設施，令我們擴闊了視野。新加坡的土地面積和人口比香港少，卻是亞洲數一數二的先進城市，更引入了各項先進的環保技術，例如新生水 (Newater)。新生水是由污水轉化成為可飲用水，當中經過三個過程，包括微滲透、逆滲漏和紫外線殺菌；嚴謹的淨化過程確保水質比可飲用的標準更高，令國民放心飲用。這樣有助減低對馬來西亞進口水的依賴，在全球淡水資源緊絀的情況下，香港政府不妨在這方面多下功夫。

另外，濱海堤壩 (Marina Barrage) 是新加坡的地標，堤壩功能是隔開雨水淡水和海水鹹水，讓新加坡能夠儲起淡水作各項用途。堤壩結合防洪、儲存淡水、娛樂功能於一身。頂層是一遼闊的綠茵草地平原。微風過處，送來大自然的獨有香味。不少市民在放風箏和玩飛碟，玩得不亦樂乎。這裡更適合進行不同的休閒活動，我認為這是一個溫習的好地方，各項休憩活動都能提升市民的生活素質。新加坡政府能完全善用一座堤壩，甚是佩服。

豐富的活動未能在此一一細說，但到獅城豈能不嚐肉骨茶、斑蘭飯和胡椒的香味……這次旅程、種種香味，與其他參加者的友誼、所學到的知識，淳樸之味在心頭透出。

Lau Fung Ping (F.6A)

Last summer holiday, I had an eye-opening experience through a 4-day trip to Singapore. In this trip, Dr. Billy, professor from The University of Hong Kong, joined and guided us to think more about sustainable topics. Here, I hope I can share some of my inspirational experiences with you.

Arriving in Singapore, I took a look at the view through the window on the aeroplane. Out of my expectation, there were a lot of green areas which were like a rainforest instead of an advanced and international city. I saw flowers of different colours on the way to the city from the airport. I even saw the Electric Road Pricing (ERP) gantry. Moreover, it charges the drivers when your car crosses the ERP gantry during peak hours so that it can reduce traffic congestion. It looks great!

One of the highlights was Marina Barrage. It is a water dam which aims at water supply, flooding control and attractive activities. An exhibition showed that there was a lot of information about Singaporean government's future target on water issues and what they had done before. For instance, there was a flood control model in the centre of the exhibition. It acts as a tidal barrier to prevent flooding in the low-lying areas in the city.

Gardens by the Bay — I loved it at the first glance because lots of colourful trees and flowers were planted! I have learnt about eco-friendly features, sustainable structures and solar panels there. Singapore has spent about 1 million building Gardens by the Bay. There are some solar panels on top of the super trees which supply electricity through the solar energy. On top of that, there are diverse gardens on sight in the plant exhibition, from Australia to South America and others.

Have you ever imagined that sewage water could be drunk after the process of purification? Singapore has made it into reality. It is called NeWater. In NeWater Visitors' Centre, the video we watched let us know the importance of water and the supply of water in Singapore including rainwater, imported water, desalination and of course the NeWater. The staff introduced NeWater which is separated into three purified processes, namely micro-filtration, reverse osmosis and ultraviolet disinfection. It aims to ensure NeWater is clean to drink and raise citizens' confidence. Also, the target of Singaporean government is to increase 55% of water supply from NeWater so that they can be safe from the lack of fresh water under global warming. Singapore can always predict the problem before it happens and try their best to cope with it and that is what I really appreciate about this city.

At that time, it inspired me to think that Singaporean government is more aggressive than Hong Kong government on water supply. One of the reasons is Hong Kong government still depends on the water supply from China. As an international city, how can we put ourselves in a dangerous position in the future? As teenagers in Hong Kong, we have to take the responsibility of tackling any potential challenges in the future.

Hire the right person: a case for fresh graduates

Chan Tsai Ho (F.6D)

Dear Editor,

As more and more students complete their studies in university, they feel they are ready to step into society. However, one problem they face is not always being accepted by entrepreneurs. As one of the newcomers to my society, I am writing to describe my miserable situation after graduation, share my opinions on this circumstance and suggest some justifications for what leads the bosses to employ graduates who lack working experience.

When we talk about what has happened to me during the days after leaving The University of Hong Kong, it always reminds me of one word "unemployment". I was looking forward to having a bright future and displaying my awesome academic results to my relatives when they asked me about my working status. The reality stroke me down emotionlessly and it left me with a fact that many find it difficult to believe — No company, not even a single one, accepted my job application, not even one! I had spent nights writing my CV and sending it to over 300 companies during the six months after my graduation, but I never heard from them again. I suspect that was due to the fact that I do not have sufficient work experience. I used to be a student of The University of Hong Kong and I won quite a number of scholarships because of my excellent results. I believe I have the capability to perform great work and to overcome challenges ahead, but at least I need a chance to enter a field so that I can start gaining my work experience.

Since it has become a trend that businessmen and companies are not willing to hire fresh graduates, the modus operandi could lead to severe consequences. One of the most significant drawbacks is structural unemployment. As more and more applicants without working experience are rejected, the unemployment rate of fresh graduates will soar. As long as the phenomenon goes on, most of the youngsters who have just left university will not get a job. This will jeopardise the sustainability of companies in Hong Kong because years later, after the old staff members retire, the entrepreneurs may want to take in newcomers. Unfortunately, they will be facing a situation where candidates are all "fresh" graduates without working experience and they may even demand high wage because of the huge demand of young human manpower. Therefore, the increase in the budget for salary and the decrease in the quality of staff may make companies unsustainable in the future. This may lead to a downturn of the general economy in Hong Kong in the long term.

Based on the phenomenon mentioned, is there anything the entrepreneurs can do? I reckon they can realize that they should not be worrying about hiring young graduates since it could actually be beneficial. Young people are usually filled with passion and eagerness to strive for the best in order to make an impact on their surroundings. Since the senior employees are not able to work as hard as before when they were younger, the fresh graduates and the senior staff can create a working atmosphere and form a relationship which will never deteriorate. Second, youngsters are generally creative and willing to learn. Business owners should not be stereotypical on fresh graduates by rejecting them due to not being sure of their ability. The enterprises should take the social responsibility of teaching fresh graduates.

We students, have spent numerous days on learning, and we want to be accepted by society. I call on the enterprises in Hong Kong to reconsider their benefits, and judge if it seems to them that it is appropriate to affiliate some fresh graduates into their companies.

Yours faithfully,
Chris Wong

A fun week with overseas students

Hui Kwan Yee (F.3D)

Last week, a group of overseas students came to Hong Kong to visit our school.

We arrived at the airport at 8:30 a.m. We had made a banner the day before they arrived. We wrote the word 'Welcome' on it. It took us a very long time to make it. My friends Mary, Peter, John and I waited for them at the gate. We felt extremely excited. After they had arrived, we had our breakfast at Starbucks. Then, we went to the bus stop which was in front of the Fun Fun Park.

We took the bus no. 8P to Happy Beach. When we reached there, some of us swam in the sea while others built sandcastles at the beach. Suddenly, we saw a shark swimming behind Peter! We felt scared. Sam, the teacher of the overseas students, stood up and yelled, 'Students! There is a shark swimming behind you! Come on! Swim back to the shore! Quickly!' The students swimming in the sea looked at that direction and screamed, 'Ah!!' Then, they swam and swam, and finally, they reached the shore. It was very dangerous at that moment. Fortunately, they were all safe. After playing for the whole day, all of us were exhausted. We took the overseas students back to their hotels and took a rest.

On the second day, we took them to some famous places in Hong Kong. We went to the Big Buddha to see the huge bronze statue. Also, we tried the crystal cable cars in Ngong Ping 360. It was amazing to enjoy the beautiful scenery from the cable cars. After that, we went to Tai O to see the Chinese white dolphins. It was lucky that we saw three dolphins on that day. We were very excited about the experience of that day.

On the third day, we had lunch in Lau Fu Shan which is very famous for seafood. After having lunch, we went back to school and had an English speaking lesson together. First, we introduced ourselves. Then, we talked about our families, pets and hobbies. I sat next to Mavis who has long curly blonde hair. Her eyes are as blue as sapphires. She is kind and optimistic as she always looks to the bright side when she faces problems. We became friends and exchanged our phone numbers so that we could keep in touch with each other even after she returns to the United Kingdom.

On the last day of their visit, we gave them some souvenirs, including handkerchieves, cards and books. We went to the airport with them. At the boarding gate, we said goodbye to one another and promised to keep contact.

I miss Mavis very much and I hope that they could come and visit us again during summer holidays.

《一幢老樓房的自述》

5C 黃展毅

三年前，我最愛每天看著五樓的電視，因為那是我當唐樓以來，看過最大最清的一部。那一天，我在聽著新聞報告。「位於旺角街市的一列唐樓，已被紅河集團收購，不久後將會進行重建工作，務求能活化旺角區。」終於，終於都到我了，終於不用再做一座殘舊不堪的唐樓。

自從華哥被重建成為一幢摩天大廈之後，我一直都很妒忌它。它很幸運的被收購重建之後，每天都享受著有人清潔及看守的生活。自此，被重建就成為了我的一個心願。啊！忘記介紹華哥，它前身也是一幢叫做「華富樓」的唐樓，附近的兄弟都稱它做華哥。

其他唐樓都很奇怪，問我為什麼那麼渴望被重建？如果你每天都被人破壞，你會開心嗎？原因亦不這麼簡單，我還承受著不停被埋怨、嫌棄及嘲笑的對待。埋怨我外牆剝落，嫌棄我沒有升降機，嘲笑我的層數和空間少。可是，卻從來不付出金錢幫我維修，完全不顧及我的感受。我已經忍受不了這些年來的委屈，一直期待著重建我的一刻。

就算住在這裡的人，亦對我毫無歸屬感，一天到黑只想搬到其他更好、設備更完善的住宅。他們根本就不想在這裡逗留多半秒，我永遠都只能當次選，當金字塔最低的那一層。既然這裡的居民都不喜歡我，我又何必以德報怨呢？大家每天對著只會更礙眼。

一年前，我等到了。我已經被重建了，名字也由「福滿樓」變成「銀湖一座」。那時的我變了豪宅，並不再是一座破樓。有完善的配套設施，每人每月都要交錢來幫我維修，每天也有數名清潔工替我清潔，管理員和守衛防止有人破壞我。這種生活，可算是無憂無慮，亦不會聽到半點怨言。可是，後來各種問題開始慢慢浮現，我也懷疑究竟我是誰。

過往這裡充滿熱鬧的氣氛，鄰居們守望相助，過時過節都會聚在一起，一起慶祝也好，吃一頓飯也好。現在，這裡變得水靜鵝飛，每個住客都非常高傲，根本不會有所謂的「睦鄰」。沒有人會理會你的生活，除非你死了，他們就會擔心。但可不是擔心你，而是害怕自己單位會受影響而貶值，實在是世態炎涼啊！

透過重建一事，我盡見地產霸權壟斷的嚴重性。以前租住我的住客不需交雜費，不用捱貴租，但現在都不知道他們能何去何從了。我回想起來，雖然當時他們不珍惜我，可是他們還蠻慶幸有我。守護他們的家，才是我的任務吧。

現在，「銀湖一座」已經享負盛名，可是從此再也沒有人會記得我。

《我上了寶貴的一課》

1D 宋世洪

在今年的接力比賽中，老師選我為比賽隊伍中的一員，隊中也包括我的數個朋友：小強、小明和大強。

在接力比賽中，我們勢如破竹，晉身決賽。我們隊和鄰班的對上，我可見識過他們的實力，我們應比他們快吧！我對隊友驕傲地說：「這一次，一定可以得到勝利的。」

比賽開始了，我們隊比他們慢了一點。接力棒交到我手上的時候，我信心十足，一路飛奔。在快到終點的時候，我回首一看，原來對手跑得很快，正在向我衝過來。正在這時，我不小心跌倒了，他也衝向終點，結果我輸了比賽。我心想：這一次一定被隊友們責罵吧！

返回隊中，他們不但沒有罵我，反而是擔心我的腿有否弄傷，還鼓勵我下一年一起再參加接力比賽。

在這一刻，我明白了接力比賽講求團隊合作精神。此外也不可以驕傲自大，應該謙虛學習別人的優點。

《襪子》

1D 梁志賢

大家好，我的名字叫做襪子。我是你們每天的必備物品，也是你們永遠的好朋友。

我的用途多不勝數，不但可以幫助你們減少腳與鞋子之間的摩擦，還可以帶給你們溫暖，使你們在冬天和朋友一起玩耍的時候，不會覺得寒冷。我通常是用棉線製造的，所以在夏天，我可以幫助你吸汗，使你的腳不會得病，例如腳氣；在冬天，我可以帶給你們無限的溫暖。我是不是很偉大呢？

在每一個聖誕節的晚上，「聖誕老爺爺」會悄悄地把禮物放在我的肚子裏。在第二天的早上，小朋友們就會開開心心地把在我肚子裏的禮物拿出來，衝出去跟他的爸爸媽媽說：「這是昨天晚上『聖誕老爺爺』送給我們的禮物！」之後，他們拿着禮物，高興得連早餐也不吃就出去玩了。

朋友們，你們一定要經常清洗和愛護我呢！
